The Woman's Body Horribly Mutilated.

[SPECIAL CABLE TO THE EVENING WORLD.] LONDON, Nov. 9. - The city is again stirred to its very centre by another Whitechapel murder-the minth in the direful series.

It is said that this latest addition to the list of horrors was made indoors. A bouse in Dorset street, near Hanbury street, was the scene of the murder.

A woman was the victim, as in the other cases and her body was shockingly mutilated. It was found not many hours after the violence had been

The fourth one was found in Hamburg street, ot far from the location of this one, and at the time she was discovered there was written on the wall near the body, the legend:

According to this, six more lives are yet to be aken, and from the success which has thus far attended the murderer's operations, it seems en-tirely possible, perhaps probable, that he will be able to faifil his horrible intentions.

OTHERS OF THE SERIES.

Resume of the Whitechapel Horrors Pre ceding This One.

The first Whitechapel murder occurred a year ago last month, in that section of London where he scum of the vile dens of vice are let loose upon the streets in the early morbing, when the police close up the brothels inrested by them.

The victim was a fallen woman past middle age, and her body was found horbidy and peculiarly matilated. But it was supposed to be only a mur-iler common among her class. No effert was made to discover the murderer, and the body was buried in Potter's Field unidentified and the case for-rottes.

The name of the unfortunate woman was Mary hand.

The victim was again a fallen and dissoluted woman, Martha Turner, and her body was foun on the first floor landing of the George Yard built ings, Commercial street, Spitalfields, Whiteenape

body of Ann Nichols was found. On the wall near the body was written in chalk:

"Fifteen before I surrender."

The body was mutilated exactly like the other three, The viotim was of the same character, and was forty-five years old. Her morder must have been after 5 o'clock in the morning, for she was drinking with a strange man at that hour in a puc-lic house near br. where many any michols was found, and mutilated in the same manner at Gateshead, sear Newcasile-on-Tyne. Although this is some miles from Whiteehapel, the similarity of the murder and circumstances make it probable that the perpetrator was the Whiteehapel fiend.

On Sept. 30, at abous 1 o'clock in the morning, a sixth victim was found in Berners street. She was a Whiteehapel strampet, "Hippy Lip Annie," aced forty years. Her body was warm when found, and although the throat was cut, as in the other cases, the murderer had been frightened away prob-bly, for there was no mutilation.

Fifteen minutes later on this same night the body of another unfortunate was found in the southwest corner of Mitre Square, mutilated as in five of the other cases.

other cases.

And on the day following an eighth body was found on the site of the projected Metropolitan Opera-Bouse on the Thames embankment in the Whiteobanal district. Whitechapel district.

It will be remembered that when the body of annie Chapman was found Sept. 8 the murderer counted are victims in his writing on the wail over the body, but the police could account for but four.

four.

The finding of this body on Oct, I cleared up the mystery, for it was badly decomposed and was undoubtedly that of the fourth victim.

In all but one case the butcher had exercised consummate still with the knife, each slash cutting a vital park. Evidently he was an educated singeon.

At this time several people of the neighborhood came forward and described a certain wild-eyed, shabby genteel man of middle age and refined mien, who had been seen in the neighborhood of late. The description talled with parts of other descriptions given of the companions of the nurdered women.

The papers were full of this description, and the murders ceased.

Philip Baer's Pitiless Fate From an "L" Train.

He Clung to the Gate, But It Was Shut in His Face.

His Terrible Sufferings Before the Eyes of the Passengers,

Clotted blood spots faintly marked the pavement in front of 24 Alien street this morning where Philip Baer landed after failing from the moving

sad occurrence from the sidewalk, but it was fresh in the minds of the people in that vicinity, and they talked of nothing else.

Baer was twenty-eight years old. He was a Rosendorf & Co., 47 Walker street, and lived at He left the store in high spirits last evening about \$0'clock, intending to go home and take his wife and family to a reception in the Lexington Avenue Opers-House.

He had been detained later than usual at the

fore and hurried across to the L road station at Canal and Allen street. Night had fallen and it was just beginning to rain.

As he reached the station a train arrived. He

was delayed at the ticket-window getting change out of \$2 with which he purchased his ticket. As he rushed for the train the gates were sammed in his face. What followed is best told in the language of William Prents, a young barber

in the language of Willism Prents, a young barber employed at 1 Orchard street. He was an eyewitness of the whole occurence and told his story to an Ewanton World reporter this morning.

"The train was crowded," he said, "and began to move just as Mr. Baer stepped on the platform of the car, holding one of the iron rods that supports the car roof.

"Let me on, conductor. Will you, please? I'm in an awful hurry," said Mr. Baer.

"Get off. You can't get on. It's against the rules to open the gate," replied the guard.

The train was galong momentum every minute. The platform was crowded, but the people shoved over to one side to give the guard room to open the gate and set the gentleman in.

He could easily have done so, but he would not. Instead, he selsed the young man by the lapels of his coat, and, exerting all his s'rength, tried to shove him off. He did not succeed.

Air. Baer pleaded: "Let me oa, for God's sake, now. I can't get off."

The then on the platform became excited and angry, and urged the guard to open the gate. He stubbornly refused, but again attempted to shove the man on the platform. He might have succeeded this films, but for the guard rail at the end of the platform, with which Mr. Baer collided with terrible violence.

The force of the shock threw him close up against the gates again. He never spoke after. No one attempted to help him on. The brakeman with blanched face stood swinging his arm about not knowing what to do.

Mr. Baer became very pale, and his head dropped.

Mr. Baer broame very pale, and his head dropped forward on his breast. The train rushed sheat. Forty feet from the platform a safety guard and foot-walk runs, but Mr. Baer clung on until even that was passed.

Then suddenly he released his hold of the rod and fell into the street twenty feet below. Passengers and brakemen then pulled the bell-rope, and the train stopped an instant, but went right on again. again.
Did you take the guard's number or get his

name?" asked the reporter.
"No. I got off at Grand street to notify the police."
"Could the brakeman have saved the mad's life "Could the brakeman navegaves the mass by opening the gate?"
"Undoubtedly. He had every chance in the world to do so," concluded Mr. Prenta.

Sam Solomon, a baker hiving on the third floor of 23 Allen arreet, witnessed the occurrence from a window. "Every one on the train seemed crazy with excitement," he said to the reporter to-day.

"The young mass chang there, and if the brakeman had presence of mind enough even to hold him, he could have opened the gate and pulled him, he could have opened the gate and pulled

"The young man clong there, and if the brakeman had presence of mind enough even to hold him, he could have opened the gate and pulled him aboard. He could have done so casily, as I could see from my window here."

Moses Gykes was in a saloon downtown when he heard the passengers hollering on the train. He rushed into the street just in time to have his hat knocked off by Mr. Baer's failing body. He helped remove him to the Eldridge street station, from whence the body was removed to P. J. Hoellerer's undertaker's shop at 138 Ludlow street.

Coroner Nugent held an inquest on the body to-day. Every one who could be found that saw the accident blame the guard for causing Mr. Baer's

The name of the guard could not be learned at Col. Hain's office, To Broadway, to-day, but he was momentarily expected there to make a statement. Ward Detective Reap, of the Eidridge street station, was also waiting to take him into custody when he would arrive.

jured.

""Don't you dare lie new, she said. 'Is he dead?'

""Yes."

"She fell in hysterics, with her little ones weeping shoot her, and I hurried away for assistance."

The comfortaids apartments on the second story of 313 East One Hundred and Twenty-first street, where Mr. and Mr. Baer have lived happily together during the past four years, were wrapped in deep gleom this morning.

The young wadow lay on her bed prosvated with grief, and it was in vain that many sympathizing friends and relatives tried to cheer her. Three bright little children, whose ages ranged from sixteen montas to nearly six years, were gathered about the bereaved mother, and it seemed as if they seated her trouble more deeply in her feelings.

Yesterday afternoon Mrs. Baer did her household duties unusually early, for her husband had promised in the morning when he started off to his work that he would be home early to take her to the Lexington. Avenue Opera-House, where the Raymond Literary and Social Society was going to have an entertainment and ball.

Her servant had prepared luncheon for him to eat as soon as he strived home, and she had laid his evening suit out on their bed, so that it would not take him long to get ready for the ball.

But he has not come yet. The new of his death fell like a shroud over the wife. The suit which Mr. Beer expected to wear to the ball will be on his body in its coffin, and will be buried with his remains on Sunday.

remains on Sunday.

It became necessary to summon a physician to attend to Mrs. Baer this morning. She was suffering from nervone prostration resulting from the shock accompanying the receiving of the sad news, but will soon recover.

Mrs. Baer will receive \$2,000 insurance on her husband's life, but aside from that will only have their nousehold furniture. Her friends say she will in all probability institute an action for damages against the Rievated road.

THE EVENING WORLD correspondent called on Mr. Mills this morning. The following conversation ensued:

"To what do you attribute the defeat of Cleveland in New York, Colonel?" asked the corre-

"To trades and deals between the friends of the Mayoralty candidates in New York and the Re-'You see they are more interested in factions success in New York City than in the success of

the National Democracy. I have no doubt that the friends of Hill, Hewitt and Grant traded of Cieveland. If not, why should Hill run so much ahead of Cleveland in New York City. It is notorious that the greatest opposition to Hill existed in New York, and I; is no secret that Hill expected to run more than 10,000 votes behind Cleveland in New York City. Yet, instead, Hill is several thousand ahead of Cleveland, making it conclusive to my mind that the President was traded off on a large scale."

mind that the President was traded off on a large scale."

'Do you think the tariff agitation had a bad effect on the Democracy in New York?"

'I do not. The jariff question had not a bad effect on our party in New York or anywhere else in the North. The vote in New Jersey, a great mann-fastering State, shows this."

'What do you think of the policy of relying on New York for Democratic success?"

'I think that in the future, or at least for some years to come, we will have to come West for our Presidential canditates. The atrugal government of New York has always been at the expense of the National ticket and the debanchery incidental to practically allowing the mixed population of a great city to control in a great National contest is not healthy. There is no doubt in my mind that money was specify wote in Brooklyn to rothing but money.

'No. I don't think that the New York politicians.

in Cleveland's vote in Brooklya to nothing but money.

'No, I don't think that the New York politicians designedly permitted the State to reverse its position politically for the purpose of giving the State political importance in National contests. The New York Democrats I consider all right, but in the miserable squabble ever local matters they allow themselves to dwarf a great National contest and great National issues. Our next Presidential candidate must be from the West, and he must be a representative of the bone and sinew of the Democratic people of the country. The Democratic party has it in its power to make enough Western States reliably Democratic, so that it will not be of much importance which way has vote of New York goes in a National issue."

"What will be the future policy of the Democratic party 7"

"We must go on without a hait. It is our mission to reduce tariff taxation and remove the burden of the recipie. We will continue the fight for tariff reform until the next Fresidential election, and then again force the issue. It is the duty of the next House of Representatives, if it has a Democratic majority, to pass snother tariff bill, and it is the duty of Democratic orators and newspapers to educate the recipie on the iniquity of unnecessary taxation. The tariff question must be kept to the front by the Democratic party whether if victory "defeat until the burdens on the person of the party of the favorable to tariff reduction, and that had leave was raised by Cleweland in his first message the result would be diff-rest.

"But the defeat of Cleveland, though sincersity to be represented, will have no effect on the policy of the party on the tariff question. There will be no retreat, but a steady advance."

"Do you think Clevelands political career will go to the tarty of warch next."
